A Trip Worth Taking. If you want to take a trip that will benefit you both in knowledge and health, go on the excursion advertised by the C. & O. to Old Point Comfort. Death of W. H. Briggs. William H. Briggs, who was well-known and highly thought of by many Lancaster people, died at his home in Danville, Monday morning. He had been in a Cincinnati hospital and was brought home Sunday. He was a young man who enjoyed the friendship and respect of all who knew him, and his death is quite a shock. His remains were interred in Danville Cemetery Tuesday morning.

Eighty-Ninth Birth Day. On last Sunday, the relatives and descendants of "Aunt Celia" Conn, assembled at her home, near Old Paint Lick, to help celebrate her eighty-ninth birth day. Children, grandchildren and great-grandchildren came from miles around, and together with others, brought well-filled baskets from which a bountiful dinner was spread,—nearly a hundred partaking at different tables. The day was an enjoyable one, and friends departed with best wishes for her, in whose honor the reunion was held, and to whose virtues and popularity they most warmly attest, as they thus meet from year to year to brighten the declining days of her life, and do honor to her good old age.

Republican Convention. The republican county convention was held at the court house Saturday afternoon. Hon. Wright Kelley was made chairman and W. Fain secretary. The committee on Resolutions was composed of Lewis L. Walker, Joe McQuerry, Jno. McQuerry and John Harris. The Record tried to get a copy of the resolutions, but the only copy had been taken to Louisville by some of the delegates. In substance it endorsed the call for the state convention, and the national platform. The Goebel election law was denounced in the most scathing language. It "recognized the fact that Kentucky will have no voice in the affairs of the nation until civil liberty is restored" and appealed to all citizens, of every class to unite with them in voting to elect officers who will see that the rights of the voter is respected. The convention instructed its delegates to vote for Hon. Jno. W. Yerkes, and paid him many high compliments in the resolution. About one-hundred delegates were named, and everybody, who is opposed to the principles contained in the democratic platform were made delegates and invited to attend. Quite a number attended the Louisville meeting.

Many Lancaster acquaintances extended sympathy to Prof. Herman Trost of Lexington, on the death of his son, who, with another boy were drowned in a stream near that city Sunday. The two boys were bathing and young Trost lost his life in an attempt to save his companion. Prof. Trost is well-known here, having played in Saxton's band for many years.

Say! Garrard county is noted for its fighting men and pretty women. Let this not mean fighting maliciously, but to uphold men of honesty, sobriety and business qualities. My success depends upon your patronage. From Dawson City. We have just received a copy of the Dawson Daily News, published at Dawson, Yukon Territory. It was sent us by Mr. W. O. Dunlap, now stationed there with the U. S. Regulars. It was wrapped in Birch bark, such as Hiawatha made his canoe from. The bark is like heavy paper, and his note was written thereon. He says he is getting along nicely. The paper sent he says sells for fifty cents a copy, and when anything of importance occurs, brings one dollar apiece, readily.

CLARENCE WOODS, in addition to being one of the cleverest fellows on this footstool, is a hustler from Hustlersville. He has undertaken to show the Richmond people that the city should own the waterworks, and is now issuing a paper devoted entirely to that question. He has labeled it the "Agitator," and its columns are jammed full of matter as hot as one of Walton's political editorials, which is putting it pretty strong, thank you. If he carries his point, we want to borrow him from the Register's owners and bring him down here to talk railroad. We have exhausted our vocabulary in an attempt to get the Garrard people to take hold of that railroad and push it to a successful end, but we are sorry to say that our words ran off like water from the back of a duck. Come down, dear boy, and lend a hand.

A REGULAR business carried on in France by ladies of the highest standing is to secure rich American brides for penniless men of title. These matrimonial agents receive heavy fees when they are successful. The poor girl, damned by a fortune, will never fail to capture a foreign "titled" scoundrel who is not worth the powder and lead to kill him. After a few years the divorce follows, the girl returns to her native land broken-hearted and penniless. It seems that they would profit by the experience of their sisters' experience, but they go merrily along chasing a crown and returning beggars.

The Cynthian Democrat notes the fact that its contemporaries continue to ask in horse type, "Is it right for an editor to recommend a patent medicine?" and says the answer depends largely upon the rate per line. At 5 cents he might casually refer to a patent medicine. At 10 cents he should be able to throw confidential enthusiasm into the matter. But at 25 cents, we see no reason why he should not really take a dose three times a day, and throw wide open the bowels of his compassion.

The news from China is quite meager, and each report is almost a direct contradiction of the one previously received. There is no doubt but that the yellow devils have committed the greatest crime of the century. It remains to be seen what action the Powers will take. We are afraid that the concerted action thereof is out of the question because petty jealousies make it impossible. Its an even bet that the Chinese are not punished to any great extent.

It is said that in Brazil passengers are not allowed to carry baggage, and only permitted to bring a small hand bag into the coach. This would work a great hardship on the American hog, who throws over one seat, piles some five or six grips thereon, and then sits a few more on the seat beside him. Its hard to see how a fellow can have the gall to occupy four seats when traveling on one ticket.

At the republican convention held in Louisville Tuesday, Hon. John W. Yerkes was nominated to make the race for governor this fall. He was nominated by Gov. Bradley, and the convention gave him a great ovation. Mr Yerkes will make an active canvass of the state, speaking in all the important cities and towns.

MANY friends over the state extend sympathy to Bro. Cep Campbell, editor of the Somerset Journal, in his illness. He has been at Rockcastle Springs and we are glad to note in the Journal that he is gaining strength. The Journal is a splendid paper, and shows careful work in all its departments.

Pepsin Syrup Co., Dear Sirs—For the past ten years I was troubled with my stomach. About 4 years ago was taken down with rheumatism; was not able to do a day's work for 3 years. All medicine seemed of no benefit to me. A year ago I was advised to take Dr Caldwell's Syrup Pepsin. I truly believe I would have died but for this medicine. My rheumatism is entirely gone and my stomach is in good condition. It has saved my life and I cannot recommend it too highly. Yours respectfully, Elwood McCracken.

IN MEMORY OF MRS O. W. KING.

Again has the Destroyer entered the precincts of a happy home and claimed for his own the angel of the fireside, the idolized wife and mother. A few short weeks ago, she endured the horrors of the surgeon's table, hoping thereby to prolong her life, and be spared to loved ones yet a little while longer. She came through the trying ordeal, purified by the fire of affliction, as a humble, obedient servant of her Master, and consecrated her life anew to His service.

Her very countenance was radiant with pure thanksgiving to God for strength in time of trouble. Her last illness was brief, and through it all, her's was the same sweet, patient, christian resignation that characterized her life in all its vicissitudes. She murmured not at the hand of affliction laid so heavily upon her.

When the summons came, with the same Christ-like submission, she calmly yielded her life to Him who gave it, and closed her eyes in a world of darkness to open them in eternal light and celestial spring.

Weep not bereaved ones! She cannot come to you, but you can go to her, where she is resting, "Safe in the arms of Jesus."

Spain's Greatest Need.

Mr R P Oliva, of Barcelona, Spain, spends his winters at Aiken, S.C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest Blood and Nerve Remedy, all pain soon left him. He says this grand medicine is what the country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed, only 50 cts. Sold by R E McRoberts druggist. 1m

Sayings of Rev. Sam Jones.

America's greed will dig America's grave.
History teaches us that whatever a nation has made its idol, at last it has fallen under its idol and died.

Greece localized her life and centralized her entire being in her literature, and at last poor old Greece turned up her toes and died under a book.

Rome centralized her whole life in her military power, and nothing but a spear throw marks the last resting place of Rome.

America has centralized her life and power on the dollar, and we will lie toes upward under the silver dollar some future day. We have exchanged our God for Gold, swapped our characters for chattels, and traded off our manhood for money.

We have inverted God's order of things and we have dwindled into a nation of Klondikers.

The country is full of lawyers, doctors, politicians, bankers, merchants, farmers, preachers, etc., but we have run short of men.

IS IT RIGHT

For an Editor to Recommend Patent Medicines.

From Sylvan Valley News, Brevard, N. C. It may be a question whether the editor of a newspaper has the right to publicly recommend and of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For Sale by R E McRoberts druggist. 1m

Statistics show that the supplies of sisal hemp are practically inexhaustible. No figures ever prepared properly represent, it is said, the ability of Yucatan alone to supply our market. The importations of this hemp into United States ports during the fiscal year now drawing to a close will be the largest on record and upwards of 450,000 bales.

Competent judges estimate the wheat crop in this county at 500,000 bushels. The average will be about twenty-five bushels to the acre. The farmers have been blessed with splendid weather for harvesting and are rapidly marketing their crops. The wheat is of excellent quality.—Danville Advocate.

Spent A Good Farm Doctoring.

Mr A N Noell of Ashville, Kansas, says he spent a good farm doctoring himself for chronic diarrhoea but got no relief and was afraid that he must die. Two young men went to Danville Sunday, expecting to take the north-bound "cannon-ball" train. If they had read The Record they would have known that the north-bound fast train does not stop there. We publish the time cards in most every issue. Moral: Read The Record.

Judge R. G. Williams, of Mt. Vernon, was in the city last week, having come down to act as a judge in the contest at the Opera House. Mr. Williams is judge of Rockcastle county, having been elected by a handsome majority. He being a democrat, and the county republican, shows the high esteem the people have for him. We had a most pleasant call yesterday from our good friend, Rev. T. H. Campbell. He arrived from his home in Rockville, Md., Saturday night. He has a large church and is pleasantly located. "Who are those gentlemen sitting on the top rail of that fence, gazing so intently at the show bills?" we asked in Danville the other day. "They are W. C. Price and Harry Gioannoli," was the reply. "You know a circus pitches its tents here on the 25th." We then sighed several sighs of different size because it was not coming to Lancaster.

To Try To Escape It

Mayor R. Kinnaird and the editor of The Record are trying to close a deal with the owners of Jackman's cave near town for a rental of that deserted cavern from now until after the election. It is our purpose to remain in town each day just long enough to attend to the most important of our work and then beat a hasty retreat to the cave. A cannon will be planted at the entrance to protect us from intruders. The object of this move is to keep out of hearing distance of the talkers of politics.

Fire.

About one o'clock Monday afternoon the kitchen at Dr. T. J. Hood's was discovered to be on fire. An alarm was given and people ran to the scene to do what they could in saving the building. The flames were leaping as high as the chimney when help arrived. A ladder was secured and a line of buckets quickly passed to Haselden's cistern, next yard. By hard fighting the flames were subdued. The old squirt gun was dragged from the "engine" house and many exerted their strength in pulling it to the scene. The damage will amount to probably \$100.

The Press Association.

The meeting of the Kentucky Press Association at Louisville next Monday will be the largest ever held by the editors. Two days will be spent in the Falls City, during which time many pleasant entertainments will be given in honor of the quill drivers. Tuesday night the boys leave for Chicago, thence to Milwaukee, Madison, Waukesha, St. Paul, Fort Snelling, Minnecha Falls, Lake Harriet, West Superior, Duluth and many other interesting points. They will be entertained in each city by press clubs and organizations of up-to-date business men. The entire trip will consume ten days. The editor will attend the business meetings in Louisville, but is unable to take the delightful outing. Our faithful stand-by, Mr. Jno M. Farra, will take the trip.

That neighborly feeling heard of so frequently, is usually one of curiosity and envy.

The law holds both maker and circulator of a counterfeit equally guilty. The dealer who sells you a dangerous counterfeit of DeWitt's Witch Hazel Salve risks your life to make a little larger profit. You can not trust him. DeWitt's is the only genuine and original Witch Hazel Salve, a well known cure for piles and all skin diseases. See that your dealer gives you DeWitt's Salve. F. P. Frisbie.

Sleep is conducive to beauty. Even a silk hat looks worn when it loses its nap.

Some jokes should be printed on thin paper so the reader could see through them.

An editor in a nearby district asks for proposals from the merchants of the town to furnish him a pair of socks, a basket of potatoes and five yards of calico, contract to be awarded to the lowest bidder. He says this is the way they do business with him when they want two dollars' worth of job work.

The editor can write more cheerfully of the business interests of the town when his columns are liberally filled with the advertising of the business houses. No editor can advocate the doctrine of buying from the home merchants, unless the home merchants show they are interested in catering to the home trade by advertising in the columns of the local newspaper. It is depressing to the editor to find business men patronizing every advertising fake that comes along, and at the same time the names of these business men are rarely, if ever, seen in the advertising columns of the local newspapers.

Somebody very aptly rises to remark what a howl would go up if the newspapers were to criticize the individuals as freely as many people criticize the newspapers. Every issue of a live and reputable newspaper is a mantle of charity, and the matter left out—truth, not gossip for dames—would often more than equal the matter published. If an editor should get out some time a cold fact edition, and get up a tree and watch the result—what a panic there would be.

A man's home paper is worth more to him than any other because it gives him more facts and local news; besides always working for the best interests of the home community. When you subscribe for your home paper, and pay for it, you increase the editor's ability to work for the development of your own community.

That there is a difference in the merits of the papers issued each week and the amount of news matter contained therein, may be accounted for by the fact that much depends on the amount of material at hand. The editors cannot manufacture news, but at the same time they exercise all due diligence to procure the same, and if they fail to secure items of local interest, it is not their fault.

Science enables us to photograph the stars; vanity makes cigarette pictures of them.

A gentleman recently cured of dyspepsia gave the following blessing: "Some have meat and can not eat, and some have none that want it; but we have meat and we can eat,—Kodol Dyspepsia Cure be thanked." This preparation will digest what you eat. It instantly relieves and radically cures indigestion and all stomach disorders. F. P. Frisbie. 1m

That neighborly feeling heard of so frequently, is usually one of curiosity and envy.

The law holds both maker and circulator of a counterfeit equally guilty. The dealer who sells you a dangerous counterfeit of DeWitt's Witch Hazel Salve risks your life to make a little larger profit. You can not trust him. DeWitt's is the only genuine and original Witch Hazel Salve, a well known cure for piles and all skin diseases. See that your dealer gives you DeWitt's Salve. F. P. Frisbie.

Sleep is conducive to beauty. Even a silk hat looks worn when it loses its nap.

Some jokes should be printed on thin paper so the reader could see through them.

An editor in a nearby district asks for proposals from the merchants of the town to furnish him a pair of socks, a basket of potatoes and five yards of calico, contract to be awarded to the lowest bidder. He says this is the way they do business with him when they want two dollars' worth of job work.

The editor can write more cheerfully of the business interests of the town when his columns are liberally filled with the advertising of the business houses. No editor can advocate the doctrine of buying from the home merchants, unless the home merchants show they are interested in catering to the home trade by advertising in the columns of the local newspaper. It is depressing to the editor to find business men patronizing every advertising fake that comes along, and at the same time the names of these business men are rarely, if ever, seen in the advertising columns of the local newspapers.

Somebody very aptly rises to remark what a howl would go up if the newspapers were to criticize the individuals as freely as many people criticize the newspapers. Every issue of a live and reputable newspaper is a mantle of charity, and the matter left out—truth, not gossip for dames—would often more than equal the matter published. If an editor should get out some time a cold fact edition, and get up a tree and watch the result—what a panic there would be.

A man's home paper is worth more to him than any other because it gives him more facts and local news; besides always working for the best interests of the home community. When you subscribe for your home paper, and pay for it, you increase the editor's ability to work for the development of your own community.

That there is a difference in the merits of the papers issued each week and the amount of news matter contained therein, may be accounted for by the fact that much depends on the amount of material at hand. The editors cannot manufacture news, but at the same time they exercise all due diligence to procure the same, and if they fail to secure items of local interest, it is not their fault.

Business men who lack the vim snap and vigor they once had, should use HERBINE. It will purify the blood, strengthen and invigorate the system. Price, 50 cents. CC & J E Stormes. 1m

The general opinion seems to be that economy should begin at somebody else's home.

If the stomach, liver and bowels fail to perform their functions regularly and naturally, the blood becomes contaminated with impurities, and the whole system is in consequence debilitated.
